## INTERNATIONAL ARCH REPORT

Internation No. PC1/JP02/12877

A. CLASS Int.	IFICATION OF SUBJECT MATTER C1 H01F30/00, H01F27/28, H01F	17/03, H01F41/04 <b>10</b>	51630 <b>2</b>
According to International Patent Classification (IPC) or to both national classification and IPC			
B. FIELDS SEARCHED			
Int.	ocumentation searched (classification system followed b	17/03, H01F41/04	
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Jitsuyo Shinan Koho 1922—1996 Toroku Jitsuyo Shinan Koho 1994—2002 Kokai Jitsuyo Shinan Koho 1971—2002 Jitsuyo Shinan Toroku Koho 1996—2002			
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)			
C. DOCUMENTS CONSIDERED TO BE RELEVANT			
Category*	Citation of document, with indication, where app	propriate, of the relevant passages	Relevant to claim No.
X Y	JP 55-138823 A (Japan Airlin 30 October, 1980 (30.10.80), Full text; Figs. 1 to 5 (Family: none)	es Co., Ltd.),	1-3,7,8 4-6
Y	JP 2000-277337 A (SHT Corpor 06 October, 2000 (06.10.00), Full text; Figs. 1 to 21 (Family: none)	ation Limited),	4-6
Further documents are listed in the continuation of Box C. See patent family annex.			
* Special categories of cited documents:  "A" document defining the general state of the art which is not considered to be of particular relevance  "E" earlier document but published on or after the international filing date  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)  "O" document referring to an oral disclosure, use, exhibition or other means  "P" document published after the international filing date of priority date and not in conflict with the application but cites understand the principle or theory underlying the invention document of particular relevance; the claimed invention can document of particular relevance; the claimed invention can document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can considered to involve an inventive step when the document of particular relevance; the claimed invention can conside		he application but cited to lerlying the invention cannot be sted to involve an inventive e claimed invention cannot be pwhen the document is h documents, such in skilled in the art family
